

FS Products Ltd

Terms of Early Structured Product Redemption

1. The Client may redeem their structured product at any time – from the date of purchase to the expiration date – by submitting a request to redeem the product in their myAlpari.
2. When a request to redeem a structured product before maturity has been submitted, FS Products Ltd (hereinafter “FSP”) will review this request within 5 business days.
3. When the Client submits a request to redeem their structured product before the expiration date, FSP will close open positions on instruments in the investment portfolio but only as is possible given the market conditions and the parameters of the trading instruments. FSP is obligated to act with prudence when processing early redemption requests.
4. If the Client has chosen to redeem their structured product before the expiration date, FSP cannot guarantee the level of capital protection selected by the Client at purchase. Even if the structured product is achieving a positive return at the moment the request is submitted, FSP may be unable to preserve the Client’s invested capital. By submitting an early redemption request, the Client accedes that the value of their investment portfolio at redemption may differ from its stated value at the time the structured product was purchased. FSP may provide the Client with indicative quotes for the redemption of a structured product at the Client's request, but providing such quotes will not obligate FSP to fulfill the early redemption request at these quotes.
